

List of Experiment

Exp. No.	Exp Name
1	Word processing - Resume preparation
2	Word processing - Seminar report preparation.
3	MS Excel: Fundamentals of Excel Workbook.
4	MS Excel - Progress report preparation
5	MS Excel Data Types & Formulas
6	MS Excel – Data Analysis & Creation of Graphs.
7	MS Power point presentation - Prepare Project Presentation.
8	MS Power Point Presentation - Prepare Lecture Presentation.
9	Create a static web page - Working with paragraphs and tables.
10	Create a static web page - Working with Hyperlinks for navigating between pages.
11	Create a static web page - Working with Images.
12	Create a static web page - Working with Video and Audio.

SYLLABUS

Module No	Contents	Tools used / Assessment and Activity
Module 1 (9 Hrs)	Basics of Computer System: Concept of Hardware and Software, Computer block diagram, Input Output unit, CPU, Control Unit, Arithmetic logic Unit (ALU), Memory Unit, Monitor. Printers: Dot matrix, Laser, Inkjet, Plotters, Scanner. System software and Application Software, Operating system concepts, purpose and functions, Operations of Windows OS. Creating and naming of file and folders, copying file, renaming and deleting of files and folders, Searching files and folders, installation application, creating shortcut of application on the desktop Overview of control Panel, Taskbar.	Activity 1 - MOOC course LinkedIn learning Certification course Assessment – Periodic Test1 and MCQs.
